

**PARTNER
TESTIMONIAL**

Spitfire Network Services – Partner Service

I would most definitely recommend Spitfire as an ISP Partner because we recognise Spitfire are focused on delivering a reliable and flexible modern network to support our customers' requirements.

They understand that one of a business's most important assets is its connectivity network and this is re-enforced by the service we get from them each time we recommend a Spitfire circuit.

We have access to a wide range of internet circuits as a Spitfire Partner allowing us to provide services to a range of different business types and sizes. Not only that, they also provide an excellent account management team that offer technical support at point of sale and are quick to respond to quote requests. This means I can be confident I am offering the best solutions to my customers which also reflects well on my company.

Spitfire ensure customers remain well looked after. They have a fast response support team who can quickly identify and resolve issues. Our customers benefit from increased profits through productivity thanks to not spending hours on the phone trying to resolve issues.

Another valuable part of our partnership with Spitfire is their Annual Partner Seminar event. Each year we attend this event where they bring us up to date with the latest products and services and also provide an insight into industry updates which is vital to us and our customers.

Overall Spitfire are a key partner to my business.

With kind regards,

Miguel Rivera
Managing Director

Tritel Communications Limited, 37 Acorn Avenue, Cowfold, Horsham, West Sussex, RH13 8RR

I would most definitely recommend Spitfire as an ISP Partner ... delivering a reliable and flexible modern network to support our customers' requirements.
