

Connectivity

Spitfire Premium FTTC Broadband

FTTC Fibre Broadband provides the fastest possible speeds that your line can support - slashing your download times and enabling you to run more bandwidth-hungry applications.

Spitfire only offer Premium business broadband with data given priority over Standard FTTC connections and residential users.

Superfast FTTC Premium Business Broadband from only £25.25 per month

Cheetah
 [Acinonyx jubatus]

Cheetah's are the fastest land animals in the world and can accelerate from 0 to 100km/h (62m/h) in just 3 seconds. Great value Superfast Fibre Broadband provides the fastest possible speeds that your line can support.

What is FTTC Premium Broadband?

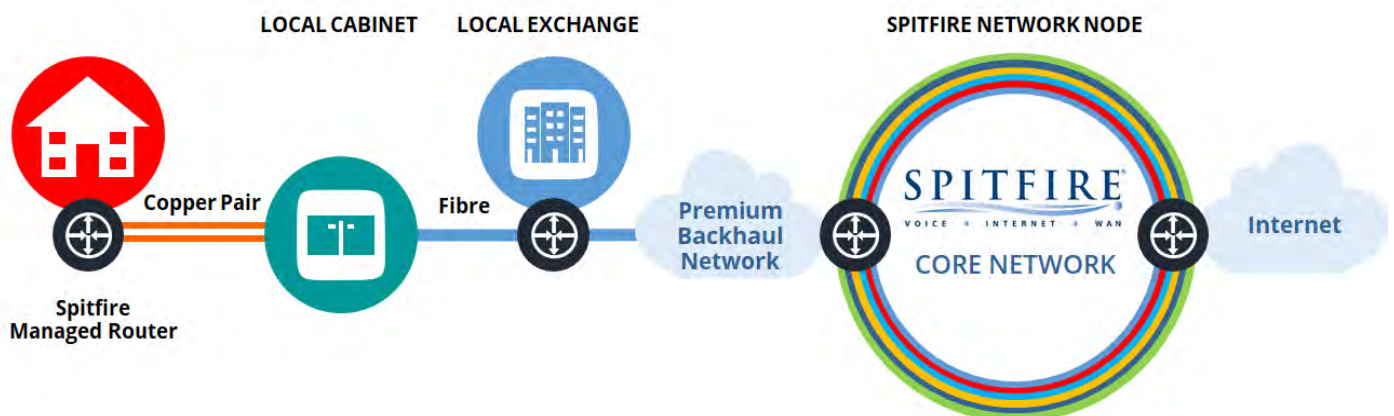

FTTC Premium Broadband utilises Openreach copper wires traditionally used for telephones to deliver the most widely available broadband service.

Spitfire's Premium Broadband services utilise BT Wholesale's Premium backhaul or TalkTalk Business' equivalent service which prioritises your network traffic over standard or residential services. Your bandwidth will be more consistent when the networks get congested at peak times.

Who is FTTC Premium Broadband for?

FTTC connectivity is the most widely available broadband option across the UK. Download speeds up to 330Mbps and 50Mbps upload and simple installation makes FTTC Premium Broadband the first choice for most.

Add Spitfire Voice Assistance to prioritise your Voice over IP traffic and the ideal choice for most small to medium businesses or staff working from home.
